## THE GROUPS

The classification of the groups is mainly done by age and level of English although the English communication skills of the children might vary per Learning Center.

### **Class A (age: 6- 9 years)**

- *English communication skills:* very basic conversation.
- *Tip:* speak English in a clear, slow and easy way. Use images and imaginary language. Often they are too shy to say they don't understand.
- *Attention:* they will listen with a great deal of interest and pay attention. Sometimes when a child doesn't understand, its mind can wonder off. You will notice. Keep repeating and explaining.

### **Class B (age: 9 - 11 years)**

- *English communication skills:* moderate, much more confident and skilled.

## THE GROUPS

- *Tip:* They understand a lot and you can do all kind of assignments. Keep on talking in easy and understandable English, because there will a big difference between the skills in English conversation. Some of the children are too shy or don't have the guts to speak and their skills won't improve easily. So keep on encouraging these children.
- *Attention:* They are very enthusiastic and want to participate in everything. Only, they are distracted easily with everything going on. This class is the most active of all.
- **Class C and D (age: 12-16 years)**
- *English communication skills:* These children very educated and their skills are good. They understand almost everything as long if you don't use language that is too formal.
- *Tip:* If you use a word or sentence they don't understand yet, let them search it their dictionary; most of the time they will do that by own initiative. But keep on asking if they understand properly, because also in this group there are differences.

## HOLIDAYS

### Holidays (no classes)

Both in Java and Bali religion plays a big role in daily- and school life. So it might happen that there are no classes (sometimes for several days) at the learning Centers, because of important religion holidays. Of course we can't inform you about all holidays, but below are the most important ones, which could influence the lesson schedules. You can ask the coordinator of the Learning Centre about the exact dates and in what way this will influence the lesson schedule.

### Java

The **Ramadan** (the Islamic holy month of fasting (*sawm*) and Eid'l Fitr (end of Ramadan), The holiday celebrates the conclusion of the thirty days of dawn-to-sunset fasting during the entire month of Ramadan.

### Bali

**Galungan** is a Balinese holiday that occurs every 210 days and lasts for 10 days. So twice a year, in June and December.

## HOLIDAYS

**Kuningan** is the last day of the holiday. Galungan means "When the Dharma is winning." During this holiday the Balinese gods visit the Earth and leave on Kuningan.

**Nyepi** is a Balinese "Day of Silence" that is commemorated every Isakawarsa (Saka new year) according to Bali's calendar (in 2012, it will be on March 23rd). It is a day of silence, fasting, and meditation. The day following Nyepi is also celebrated as New Year.

Although Nyepi is primarily a Hindu holiday, non-Hindu residents of Bali observe the day of silence as well, out of respect for their fellow citizens. Even tourists are not exempt; although free to do as they wish inside their hotels, no one is allowed onto the beaches or streets, and the only airport in Bali remains closed for the entire day. The only exceptions granted are for emergency vehicles carrying those with life-threatening conditions and women about to give birth.

## TRANSPORTATION

### Transportation

In Indonesia you can travel by bus, train, demo, motorbike/scooter and taxi (remember that in Indonesia you drive on the left side of the road).

There are many **taxis** in the tourist area. On Bali the most save one to take is the Blue Bird taxi; they will always use the meter. If you take another taxi company, be sure to ask if the taxi driver will put on the meter. Most of the taxi's outside the tourist area don't use a meter. So bargain a good price and be sure that the deal is clear before you go.

Also when you rent a scooter or a car with a driver. Make the deal upfront!. Otherwise it may happen that it changes when you are on the way. Ask local people what a reasonable price is to various destinations, because prices are increasing these days.

If you rent a **motorbike/scooter** it is important to check if everything works, like breaks, light and automatic starter. For longer term rent the price is about 40.000/50.000 rupiah per day. A reasonable price for a moth rent is about 500.000 to
